

SERVICES INCLUDED

+ START & DRIVE CONTRACT

The most comprehensive service contract in Africa

Tailor-made to the specific transport activity through each vehicle's PMS, our different "Start and Drive" packages can offer routine maintenance service and driveline repairs according to intervals and conditions signed in a contract. With "Start and Drive" the maintenance is controlled, the safety of the vehicle is secured and your working tool is protected from unplanned downtime. The productivity of your business is maximized.

Diagnosis and follow-up

- Electronics
- Brake system
- Driveline
- Suspension, wheels
- Axles, steering, chassis
- Cab
- Other checks

Servicing (systematic and predictive maintenance)

- Engine oil change, replacement of filters (diesel and oil)
- Gearbox oil change, filter replacement
- Coolant replacement
- Drive axle oil change
- Air conditioning system maintenance, cab filter replacement
- Air filter replacement
- Air dryer cartridge replacement
- Replacement of belts and tensioners
- Fifth wheel or towing hook greasing
- Chassis and hinge lubrication without grease fitting
- Radiator cleaning
- Valve and injector clearance adjustment

Maintenance operations, driveline repairs and maintenance intervals are individually signed in a contract for each vehicle, based on its PMS, mileage and contract duration.

+ OPTIFUEL TRAINING

The Optifuel Drivers Training is ESSENTIAL for improving safety conditions and 0 accident policy

Trucks drivers are the most concerned population by safety during the road transport: road accidents, those related to handling during the loading and unloading of the vehicle, risks of falling when getting on and off the cabin, traumas due to vibrations and prolonged sitting, psychosomatic conditions related to stress, time and security constraints. With our Optifuel programs, the drivers are trained to:

- Improve safety conditions.
- Increase vehicle productivity, reliability and availability.
- Reduce fuel consumption and parts tear and wear.

SAFETY+ OPTIONS PACKAGE

EBS + ASR + HSA

Electronique brake system + Acceleration Slip Regulation/ Traction Control System + Hill Start Aid

NEUTRAL INHIBITION

Prevents the driver from going "in neutral" while driving downhill.

2ND WALKWAY BETWEEN CHASSIS RAILS

Allows the driver to attach the semi-trailer to the tractor safely.

AUTOMATIC HEADLIGHTING + WINDSCREEN WIPING

A safety and comfort function that avoids and diversion of the concentration of the driver on the road when switching on and off the devices.

DOOR REMOTE CONTROL + IMMOBILIZER + REMOTE BATTERY SWITCH

Anti-theft protection and good battery protection.

LAMINATED SIDE WINDOWS

Laminated glass has real advantages in terms of safety and comfort. In the event of an accident, it remains stable and does not burst into thousands of pieces. In case of break-in, it is more resistant to shock impacts. It also has very good acoustic capabilities thus reducing the noise in the cabin.

ROOF HORNS

Powerful buzzer to alert road users in case of danger.

FRONT FOG LIGHT + ADDITIONAL CORNERING LIGHTS

Switched on fog lights illuminate the low sides of the road on the turning trajectory of the vehicle. The visibility scope on winding roads and in the turns is much larger. Better detection of the road track and the obstacles in the night.

EMERGENCY BRAKE LIGHTS

Automatic flashing of the rear brake lights in case of emergency braking.

SEAT BELT REMINDER

Reminds the driver to fasten the seat belt.

COMFORT SEAT

Recaro brand, specially designed for Renault Trucks with a variety of adjustments for better ergonomics of the driving position.

STEERING COLUMN 3 POSITIONS

Allows a better ergonomics of the driving position. The driver is more attentive and less tired.

ANTI RUN AWAY PARKING BRAKE

In order to reduce the risk of unexpected movement of the truck due to improper handling of the driver the vehicle automatically activates the parking brake as soon as the driver door is open to immobilize the truck even if the engine is rotating.
